

# Excavation & Earthmoving Services

At MSB Civil Contracting Pty Ltd, we provide reliable excavation and earthmoving services for residential, commercial and civil construction projects. With over 13 years of hands-on industry experience, we understand the importance of proper site preparation, quality workmanship and getting the job done right.

As a locally owned and operated growing business, we take pride in delivering practical solutions, efficient service and professional results, whether it's a small domestic job or a larger construction project.

## Our Excavation & Earthmoving Services

- **Site Preparation** — Preparing sites for construction, concrete slabs and new developments.
- **Slab Preparation** — Ground preparation and levelling to help get your project ready for concrete.
- **Footings & Foundations** — Excavation and preparation for footings, pads and foundations.
- **Trenching & Excavation** — Excavation for suitable construction, drainage and service-related works.
- **Bulk & Detailed Earthworks** — Earthmoving and ground shaping to suit your project requirements.
- **Driveway Preparation** — Excavation, levelling and preparation for new domestic and commercial driveways.
- **Retaining Wall Preparation** — Groundworks and excavation to assist with retaining wall projects.
- **Concrete & Spoil Removal** — Removal of unwanted concrete, soil and other materials.
- **Site Clean-Ups** — Clearing and tidying work areas to help prepare for the next stage of construction.

## Why Choose MSB Civil?

At MSB Civil, we believe every project deserves attention to detail, reliable service and quality workmanship. Our hands-on industry experience allows us to understand the practical requirements of construction sites and work towards delivering results that meet each project's needs.

We pride ourselves on being approachable, dependable and committed to building strong relationships with our clients.

**Whether you're a builder, developer, homeowner or local business, we're happy to discuss your project and help find the right solution.**
